Ashley Pae

Print Prototype 2

For this sketch, we wanted to explore a very simple design layout equipped with rounded, geometric typefaces and cute illustrations. Due to the limited amount of time allotted for the rapid paper prototyping, the ideas somewhat remained consistent with our original design. Now, we would like to go more in depth with the interactive elements and flow of the application. We are still trying to figure out the most efficient way to schedule the chore list and remind housemates of deadlines for their assigned tasks. We are still grappling with the logistics, like dates, times and frequencies for each chore on the list, and need to brainstorm more ways of organizing all the information clearly and effectively.
